

Elaine interviewing Sixtine and Clara, students in the Premiere Class at College St Charles in St Brieuc

Elaine: So, I'm talking now to Sixtine and to Clara who have been involved with the current project in their English lesson. So, we'll start with you Sixtine, tell us which of the interviews did you choose and why?

Sixtine: So I choose Grain de Sail because I think I was very interesting in the chocolate industry and with the ecological purpose they have. I thought that this interview was very interesting to me because she inspired me a lot. The workers of Grain de Sail they found a way to unite their value of ecology for ecology with their job which I found very in my world.

Elaine: And has it inspired you perhaps after listening to that to maybe get involved in something like that, like ecological?

Sixtine: Er, yes it has. It has inspired me because I love the fact that they try their best to work for ecology, to to travel with medicals equipment for clinics and hospitals need in New York. And it inspired me because they are very working hard to make this little factory grow and become very famous.

Elaine: So what career plans have you perhaps got? After, you know, maybe influenced a little by this or just your own?

Sixtine: It hasn't influenced my choice because I already knew what I wanted to do. Indeed I want to be a master physician I think or I'm still hesitating but I'm training to do this job today er because I am passionate with space and math, physics which I think are very interesting and I want to research because I aim to help people by finding a new technology that will help humanity

Elaine: in the future

Sixtine: in the future yes.

Elaine: And I also believe you've applied for the place on the nasa

Sixtine: yes

Elaine: course. How is that going?

Sixtine: So the nasa is a project between 25 nationalities around the world. So we are, we can spend 2 weeks in Houston in the united space crew and this was a very unique opportunity for me when I discovered that my high school proposed us to apply for this journey. So I've been selected between around 30 person and today we are 8 girls to fight for the space so I hope I will be selected after the meeting.

Elaine: ok, well thank you and I wish you the very best of luck, and we'll keep fingers crossed because I have met before several of the students who were selected and when they came back they were able to talk to us about their experience. So best of luck and now over to Clara.

Elaine: So I believe you were working together?

Clara: Yes on the interview we were working together.

Elaine: How did that, let's say how did that work out, you were working together, how did that work out? Because you chose the same, you've chosen the same one?

Clara: um, We find this interview in this factory very inspiring because it's here in Brittany and so there are people, inspiring people around us and the interview can spotlight a little industry like that like this so it was very interesting to work on this project.

Elaine: And I understand that you are also applying for the place on the nasa course?

Clara: Yes

Elaine: Tell us about that

Clara: So I apply for it and tomorrow we got a test so to choose the final person who will go at the nasa

Elaine: How many will they are they looking to choose?

Clara: er 2, a girl and a boy

Elaine: a girl and a boy wow. So you won't be fighting with each other will you? If one gets chosen ...

Clara: it's not a fight

Sixtine: because we are friends so

Elaine: so you're friends, ok, that's good. And what are your plans maybe for the future now that you're working so hard on improving?

Clara: I like to work on aerospace, maybe become an engineer or being a pilot

Elaine: wow, would you like to pilot a

Clara: yeah, piloting is my passion. I'm already piloting.

Elaine: Are you?

Clara: yeah

Elaine: on a plane, a small light aircraft?

Clara: Yes small planes, yeah. It's called a DR400. It's the name of the plane

Elaine: That's amazing, well done

Clara: Yeah, it's really great

Elaine: And where do you fly from?

Clara: it's um

Elaine: St Brieuc?

Clara: St Brieuc airport and I went Cap Frehel also in Brittany so we flew over Brittany. It was good.

Elaine: Well done , fantastic, golly I'd love to do that but I think I'd be too terrified now. Maybe you'll perhaps one day be a commercial pilot?

Clara: I'd like to or maybe work on the army like a pilot in the army.

Elaine: So if I'm on a flight going somewhere on a plane and they introduce and they say your captain today is Clara

Clara: Clara, yes, maybe

Elaine: I'll give you a clap. Thank you very much girls and very best of luck in whatever you do in the future and I know that your expert command of English will take you far.

Sixtine & Clara: Thank you
